

Science they'll never forget

Loud, fun, real science from astronomer and BBC presenter Mark Thompson.

BBC Stargazing Live

The One Show

BBC Breakfast

Good Morning Britain

Ten astronomy books

Edinburgh Fringe Best Children's Show 2019

Choose your show

Each session runs 45–60 minutes

PRIMARY
KS1–KS2

Spectacular Science

The award-winning show, made for schools. Fire tornadoes, elephant's toothpaste, exploding hydrogen balloons and giant vortex rings. Includes audience participation.

Materials, forces, states of matter, working scientifically

PRIMARY AND SECONDARY
KS2–KS4

Space: The Ultimate Adventure

From our Moon to the edge of the observable universe with the presenter of Stargazing Live. Big questions for primary; real physics and new discoveries for secondary.

Earth and space, light, gravity

SECONDARY
KS3–KS5

The Science of Sleep

Mark once lectured for almost six days on barely any sleep. What sleep does for memory, mood and learning, and why teenage body clocks run late. Also suits staff and parent evenings.

Biology, PSHE and wellbeing

Prices

One show	£400
Two shows, same day	£700
Science Day · three shows	£950

- Add £50 per Spectacular Science show for consumables
- Mix and match any shows within a package
- Two nearby schools can share a day at package rates
- Travel expenses may apply over 150 miles from South Norfolk

Practical details

Talks

30 minutes to set up. A projector and screen, or a large TV, required.

Spectacular Science

1½ hours to set up and 1 hour to clear away. At least 30 minutes between shows. Smoke detection in the hall must be turned off.

All sessions

A standard power socket. Audiences from one class to the whole school. Fully risk assessed; assessment supplied on booking.

Now taking bookings for 2026–27
